

October 29, 2012

Dear *Colorado Safe Routes to Schools*;

Recognizing the range of benefits to having students walk, bike, or otherwise self-transport to school, we support the proposed effort to increase the safety of crossing one of our nearby major streets. When students bike or walk to school, they arrive fresh, energized, and ready to learn. With neighborhood and community support, we endorse the proposed safe crossing of Table Mesa Dr. at Yale/Gillaspie. An increase in the perceived and actual safety of our neighborhood walking and biking options will benefit our school community and the neighborhood in which our school is located.

Thank you for considering this proposal.

Sincerely,

Jim Eagen
Principal
